NOTES TO FINANCIAL STATEMENTS

1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

BedRok Securities LLC (the "Company") is a broker dealer registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company's parent company, CapRok Capital LLC (the "Parent"), is owned by two members. The Company operates sales offices in New York and Texas and acts as a broker and dealer of products consisting primarily of asset backed securities, corporate bonds and stocks.

The Company has an agreement with a clearing broker ("Broker") to clear securities transactions, carry customers' accounts on a fully disclosed basis and perform certain record keeping functions.

Use of Estimates

Management uses estimates and assumptions in preparing the financial statement. Those estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Concentration of Credit Risk for Cash

The Company maintains its cash balances at one financial institution. These balances are insured by the Federal Deposit Insurance Corporation subject to certain limitations.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Other Receivables

Other receivables are stated at the amounts management expects to collect. An allowance for doubtful accounts is recorded based on a combination of historical experience, aging analysis and information on specific accounts. Account balances are written off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. Management has determined that no allowance is required at December 31, 2016.

Fair Value Measurements

United States generally accepted accounting principles ("GAAP") requires certain financial assets and liabilities to be measured at fair value. GAAP defines fair value, provides guidance for measuring fair value, requires certain disclosures and discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). GAAP also provides for a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

NOTES TO FINANCIAL STATEMENTS

1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect management's own assumptions.

2 – SECURITIES OWNED AND SOLD, NOT YET PURCHASED

Marketable securities owned and sold, not yet purchased, consist of trading debt and equity securities recorded at market values, as follows:

| | Sold, |
|--------------|--|
| | Not Yet |
| Owned | Purchased |
| \$ 127,494 | \$ 38,607 |
| 766,454 | - |
| 20,552 | 33,718 |
| 917,418 | - |
| \$ 1,831,918 | \$ 72,325 |
| | \$ 127,494 766,454 20,552 917,418 |

Generally, for all U.S. Treasury securities, equities, and, to the extent possible, for debt securities, fair value is determined by reference to quoted market prices and other relevant information generated by market transactions, and thus have been valued using level 1 inputs. Asset backed securities and corporate bonds are valued using level 2 inputs.

Fair value has been determined by the clearing broker utilizing proprietary pricing models to evaluate the holdings.

NOTES TO FINANCIAL STATEMENTS

7 – COMMITMENTS

The Parent is obligated under a non-cancelable operating lease for property located in Rye, NY which is the Company's primary corporate office expiring on February 28, 2019. The Company does not have an executed sub-lease agreement with the Parent for this location, but is responsible for making monthly rent payments to the landlord. The Parent has the option to terminate the lease at any time provided that it gives the landlord prior notice of its election to terminate in accordance with the terms of the lease agreement.

Total minimum future annual rentals under the verbal agreement, exclusive of real estate taxes and related costs, are as follows:

| Year Ending December 3 | 1, |
|------------------------|------------|
| 2017 | \$ 217,740 |
| 2018 | 224,268 |
| 2019 | 37,560 |
| | \$ 479,568 |

8 - RETIREMENT PLANS

The Company maintains a deferred compensation plan which consists of three components: employee 401(k) salary deferral, employer discretionary profit sharing and employer non-elective safe harbor. The plan covers substantially all eligible employees. Participants are permitted, in accordance with the provisions of Section 401(k) of the Internal Revenue Code, to contribute a portion of their gross earnings into the Plan on a pre-tax basis. The other two components, discretionary profit sharing and employer non-elective safe harbor, are non-contributory and are funded entirely by the Company.

9 - REGULATORY REQUIREMENTS

As a registered broker-dealer, the Company is subject to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, which requires that the Company's aggregate indebtedness shall not exceed fifteen times net capital, as defined, under such provision. At December 31, 2016, the Company had net capital of \$1,886,990, which exceeded requirements by \$1,786,990. The ratio of aggregate indebtedness to net capital was 0.31 to 1.

The Company operates its securities transactions under the provisions of (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission as a fully disclosed broker-dealer and accordingly, customer accounts are carried on the books of the clearing broker.

NOTES TO FINANCIAL STATEMENTS

10 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

In the normal course of business, the Company's customer activities involve the execution, settlement and financing of various customer securities. These activities may expose the Company to off-balance sheet credit risk in the event the customer is unable to fulfill its contracted obligations. The Company is therefore exposed to risk of loss on these transactions in the event of a contra party being unable to meet the terms of their contracts, which may require the Company to purchase or sell financial instruments at prevailing market prices.

11 - RISKS AND UNCERTAINTIES

The Company invests in certain securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of financial condition.

12 - GUARANTEES AND CONTINGENCIES

FASB ASC 460, Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. FASB ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying liability that is related to an asset, liability or equity security of a guaranteed party. FASB ASC 460 also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement as well as indirect guarantees of the indebtedness of others.

The Company guarantees all of the customer margin account balances held by its clearing broker. The Company is responsible for payment to its clearing broker for any loss, liability, damage, cost or expense incurred as a result of customers failing to comply with margin or margin maintenance calls on all margin accounts. The margin account balance held by the clearing broker as of December 31, 2016 was \$648,390. Given the existence of the underlying collateral provided as well as the negligible historical credit losses, the Company does not maintain any loss reserve.
